

ANTIBLOCK ADDITIVE STATEMENT

Tris Hydrochloride GMP

BioSpectra has assessed the supply of Poly Liners from BioSpectra's approved supplier. Based on this assessment, BioSpectra can state that Tris Hydrochloride, Bio Excipient Grade utilizes poly liners with antiblock additives talc (magnesium silicate hydrate) and diatomaceous earth (flux calcinated silica) used in the production of the non-slip liners. All poly liners supplied to BioSpectra and used to package Tris Hydrochloride, Bio Excipient Grade are manufactured from virgin polyethylene FDA approved material conforming to 21CFR1520 regulation.
